PROJECTS

Mailroom • Creator

- Developed a full stack, responsive, web application using Node.js and React.js that allows users to consolidate their package tracking links into a user-friendly table.
- Utilized webdriverio in JavaScript that scraps the delivery status of their package tracking links.
- Incorporated API calls to store package and user details in PostgreSQL backend.
-

Weather Web App • Creator

- Developed a responsive, React.js weather app that allows users to see a 5 day forecast.
- Incorporated API calls to OpenWeatherMap to allow users to fetch data from their city's name or zip code.

SKILLS

- JavaScript/Node.js (Express.js, React.js)
- Python (Flask)
- HTML, CSS, SQL(PostgreSQL, MySQL)
- Git, Linux, Windows, MacOS
